

AA24P22

USB4 to 2 PCIe X4 Slot Dock

• Feature

- Plug and play: Based on USB4 technology, no driver installation is required on mainstream operating systems.
- High-performance: Single device supports 40Gbps bandwidth.
- Dual channel: Two PCIe devices can be used at the same time, with a total bandwidth of 40Gbps for USB4.
- Must use an external power supply and 40Gbps cable.
- When two devices are working at the same time, the total bandwidth is shared at 40Gbps.
- SSDs under high load generate significant heat, so it is necessary to ensure good heat dissipation.

CONTACT US

• Usage Usage

- Install: Fix the PCIe device to the slot and secure it with screws. Heat sink must be installed.
- Power: Connect the power adapter and turn it on.
- Use: The system will automatically recognize the device and you can start using it.

• Specification

Main Controller	USB4
Chipset ID	Asmedia2464
Host Interface	USB4 Type-C (Supports Thunderbolt 3/4)
Expansion Port	2 x PCIe x4 (PCIe 4.0/3.0 x2)
Power Input	12V 3A
Dimensions	116x65x84mm
OS Compatibility	• Win 10/11, Mac OS, Linux

• Accessories

- 1 x Dual PCIe Slot Expansion Dock
- 1 x 12V 3A Power Adapter
- 1 x 40Gbps Data Cable
- 2 x Fixed Screws
- 1 x User Manual
